### Covid-19 Crisis

**Q**uarantine is very important at this time  
**U**niversal problems throughout the whole world  
**A**nimals and humans are all getting sick  
**R**egulating crowds flood supermarkets now  
**A**lways believing that God can save us  
**N**obody is safe from the Coronavirus  
**T**eachers and students are all staying home  
**I** hope this will all end very soon  
**N**othing can stop this terrible disease  
**E**ventually everyone will be okay

### My Feeling

Many emotions I feel  
As everything seems so surreal  
Knowing this pandemic is not ideal  
I can't even remember how long it has been  
Since the first day I've stayed in  
As I'm afraid to go out  
Afraid of what might come about  
Something has become a new routine  
Trying to keep my face and hands clean  
To get all the germs that are unseen  
While also slowly getting bored of just watching a screen  
Maybe I'll imagine myself in a movie scene  
Unable to meet physically with family and friends  
But hey, I guess we can still see them through a camera lens  
I always keep to myself a notation  
When it comes to any bad situation  
It may be very simplistic  
But it is to stay optimistic.

## 2020 Pandemic

This is a year nobody will forget  
There has been struggle  
There has been deaths  
This is a time nobody will forget  
People are scared  
People worried  
People are not sure about what lies ahead  
This pandemic has hurt us all  
But we will fight back and win  
I know this because we've done it before  
But noone will forget this time atall

“My Quarantine Experience and Thoughts”

*By Rylie Hogan Gr 8A*

My life has been flipped upside down  
Coronavirus needs to go  
School is online  
My sports are cancelled  
And to make matters worse  
I lost a good portion of my eighth grade year

With everything negative going on  
I try to find an activity other than school to do  
It is so hard to be in the house constantly  
And finding a new activity to keep you busy is even harder  
But on an everyday basis  
I am on my phone  
I try to listen to music in the mornings to get me pumped up  
I walk around my neighborhood  
I play basketball in my driveway  
And facetime my friends and family  
Those are just some everyday activities  
That get me in a positive mood

Hopefully life is back to normal by the summer  
The days go by so much faster and I miss everyone  
All we can do is stay inside and pray  
I feel for everyone that is struggling  
And this has been hard on all of us  
But it will end soon  
And life will be so much better ....  
After this is resolved.

## "The Good and Bad Pandemic"

A pandemic has swept across the land

The bad part of the pandemic  
Has taken those we love and cherish, away from us  
Has put us in hospitals, isolated and alone  
Has split up families and friends

But look!

Families stuck together inside  
Eating, doing activities and more  
Learning more about each other, more than any time before  
The youth is finding ways to talk with the old  
So seek out this good part and cherish it!  
And you will see that all bad things have a good side too

## *Hard Times*

*Remember before the hard times  
We would go out and enjoy our lives  
We would go to school and talk to our friends at recess  
We would say hi and hug everyone  
For the hard times had not yet come  
But they did, and hit the world like a knife  
Now look at the hard times  
We can't go out and have to stay home where it's safe  
We can't go to school and have to go online,  
Where we can no longer enjoy the fun times  
We won't say hi only having a mask around our lips,  
and no longer have contact  
But look..... after the hard times  
We will go out again to enjoy the time we lost  
We will go back to school and cry from happiness  
As we see the friends we love  
We will say hi to everyone in the streets;  
Hugging will be another way of communicating  
The hard times will go by  
But while it's here we have to be strong  
We need to help make it end  
Because hard times don't put us down*

Jason Stuart

## The Hope of the Days

**C**onnected to everyone

**O**ne community is with you

**R**emember you're not alone.

**O**thers are there for you

**N**o matter what you will get through it.

**A**ll of us will get through this together.

**V**iruses spread unless we stay apart.

**I**nternational crisis, we can get through as one.

**R**egroup as one

**U**nited as one we stand

**S**erve for each by example

### Quarantine Thoughts

Quietly praying for those affected by Coronavirus  
Unable to visit loved ones  
All school and sports are cancelled  
Reflecting on our past actions  
Awaiting the end of this pandemic  
Never forget this devastating time  
Talking to friends over the phone  
It's not the same seeing friends on a screen.  
Never thought I would miss school  
Everlasting patience and hope  
Dreaming of the better days in the future

Coronavirus Poem

April 16, 2020  
7A

I wish to go and see my friends  
I wish to go to stores  
I wish to go to school  
I wish that everything was normal  
I wish they would find a cure  
I wish everything was not put on pause  
I wish people were not afraid to step out of their homes  
I wish we could go places without having to wear a mask and gloves  
I wish I could have this year back  
I wish I were able to do a lot of things that are restricted  
I wish I could have gone to my first Cheer competition  
I wish we were not stuck at home  
I wish a lot of things that this virus had put on hold  
I shouldn't have to wish for these things  
These things I wish for shouldn't be something people fear  
These things I wish shouldn't be restricted  
I just wish everything would go back to the way it was before
